The Honorable Steve Myers, Mayor
City of Pacific
300 Hoven Drive
Pacific, Missouri 63069

Prelim-EAP
Community Name: City of Pacific
Franklin County,
Missouri
Community No.: 290134

Dear Mayor Myers:

We are pleased to present your community with preliminary copies of the Flood Insurance Rate Map (FIRM) and Flood Insurance Study (FIS) report for Franklin County, Missouri and Incorporated Areas for your review and comment. The enclosed FIS report for Franklin County describes the flood hazard information updates made to the FIRM and FIS report and the source information used in making the updates. We have revised the FIRM panels for the entire county and all incorporated areas with updated flood hazard information.

We are sending the preliminary copies at this time to give your community an opportunity to review them. Additionally, in an effort to assist you in circulating the information, we have posted digital copies of the revised FIRM and FIS report materials to the following website: <http://www.fema.gov/preliminaryfloodhazarddata>. We will contact you shortly to schedule a formal community coordination meeting (referred to as a "Consultation Coordination Officer [CCO]" meeting) to discuss the revised flood hazard information, ordinance adoption, and other frequently asked questions and concerns. In the meantime, we encourage you to circulate the enclosed copies as widely as possible among elected officials, staff, and other individuals or organizations in the community who would have an interest in the FIRM and FIS report so that they will have the opportunity to review them thoroughly before the CCO meeting. The review period provides community officials and citizens in the affected communities with an opportunity to identify changes or corrections to non-technical information, such as corporate limits, road names, and stream names on the FIRM or in the FIS report. Comments may be sent to Darryl Rockfield at Missouri State Emergency Management Agency (SEMA) by either email or postal mail. Mr. Rockfield's email address is Darryl.Rockfield@sema.dps.mo.gov, and his mailing address is 2302 Militia Drive, Jefferson City, Missouri 65101. Please provide a copy of all comments to Jose Mateo Morel of my staff. Mr. Mateo can be reached by postal mail at the address on this letter, by email at Jose.MateoMorel@fema.dhs.gov, or by telephone at (816) 283-7031. Please submit comments (digital format such as shapefiles preferred) no later than 30 days from the date of this letter. All comments and changes received during this review period will be incorporated, as appropriate, before the FIRM and FIS report become effective.

To assist your community in maintaining the FIRM, we have enclosed a Summary of Map Actions (SOMA) to document previous Letters of Map Change (LOMCs) (i.e., Letters of Map Amendment

[LOMAs] and Letters of Map Revision [LOMRs]) that will be superseded when the FIRM becomes effective. Information on LOMCs is presented in the following four categories: (1) LOMCs for which results have been included on the FIRM; (2) LOMCs for which results could not be shown on the FIRM because of scale limitations or because the LOMC issued had determined that the lots or structures involved were outside the Special Flood Hazard Area (SFHA) as shown on the FIRM; (3) LOMCs for which results have not been included on the FIRM because the flood hazard information on which the original determinations were based is being superseded by new flood hazard information; and (4) LOMCs issued for multiple lots or structures where the determination for one or more of the lots or structures cannot be revalidated through an administrative process like the LOMCs in Category 2 above.

LOMCs in Category 2 will be revalidated through a single letter that reaffirms the validity of a previously issued LOMC; the letter will be sent to your community shortly before the effective date of the FIRM and will become effective one day after the FIRM becomes effective.

For the LOMCs listed in Category 4, we will review the data previously submitted for the LOMA or LOMR request and issue a new determination for the affected properties after the FIRM becomes effective upon request.

The LOMR process is dynamic, and the Federal Emergency Management Agency (FEMA) reviews LOMR applications regularly. To complete production of the preliminary FIRMs, which includes incorporating the effects of "mappable" LOMRs issued since the last map effective date, a specific cutoff was established. FEMA will address any approved LOMRs issued after the cutoff date when the final Summary of Map Actions (SOMA) is distributed. If your community has concerns regarding a specific case, please submit the LOMR case number, as well as any appropriate documentation, to Jose Mateo Morel of my staff before the end of the comment or appeal periods discussed below to assist us in keeping the map up to date.

After the CCO meeting, we will initiate a statutory 90-day appeal period for certain communities within Franklin County. A statutory 90-day appeal period is required when FEMA adds or modifies Base (1-percent-annual-chance) Flood Elevations (BFEs), base flood depths, Special Flood Hazard Areas (SFHAs), flood zone designations, or regulatory floodways within a community, as shown on the preliminary FIRM. If your community is identified as requiring an appeal period, we will send you a letter approximately two weeks before the start of the 90-day appeal period to detail the appeal process. The letter will include information regarding notifications to be published in *The Federal Register* and local newspaper(s) and will provide the first and second publication dates. The appeal period will start on the second publication date. Additional information concerning the 90-day appeal period will be provided during the CCO meeting.

After the 30-day review and appeal periods have ended and we have addressed all comments/appeals, we will initiate final preparation of the FIRM and FIS report. The new FIRM and FIS report for your community will become effective approximately seven to ten months later. Before the effective date, you will be notified in writing of the official FIRM and FIS report effective date and asked to adopt floodplain ordinances or modify existing ordinances as necessary that correspond with the new FIRM or FIS report. Several months before the effective date, we will mail one set of printed copies of the finalized FIRM and FIS report, and a CD with digital copies of the map and report products.

The Honorable Steve Myers, Mayor

Your community's comments on the preliminary FIRM panels and FIS report are an important part of our review process, and we will consider them carefully before we publish the FIRM and FIS report in their final form. If you have any questions regarding the preliminary copies of the FIRM and FIS report, please contact Darryl Rockfield at (573) 526-9383 or Darryl.Rockfield@sema.dps.mo.gov. If you have general questions about mapping issues, please call the FEMA Map Information eXchange (FMIX), at (877) 336-2627 (877-FEMA MAP) or e-mail them at FEMAMapSpecialist@riskmapcds.com.

Sincerely,

Teri A. Mayer, Chief
Risk Analysis Branch
